KELWAY SOIL ACIDITY AND MOISTURE METER

Soil Tester Gives Accurate pH and Moisture Level Readings in Just 3 Minutes

Portable Kelway Soil Tester is rugged, convenient and operates without a power source. To obtain a reading, insert the probe into moist soil, leave for three minutes, then read pH and moisture on the spot.

Metal plates on the sides of the meter produce a natural electricity when inserted into the soil. Measures from 3.5 to 8.0 pH on the outside scale of the dial and from 0 to 100% moisture on the inner scale of the dial.

SPECS:

- Measures 3.5 a 8.0 pH
- Size 6.5"
- Accuracy: ± 0.2 pH, $\pm 10\%$ moisture
- Complete with instructions and carrying case.

Conditioning Film sheets are required to clean the metal side plates and are sold separately, Pkg. of 12.
